Donna is passionate about enhancing the large amount of time we spend in our workplace (too much, for many) to ensure it's effective and productive, as well as enjoyable.

She believes that workplaces are complex, but not hard. More often than not it's getting the simple things right, consistently, that has the greatest impact. When we decide to be intentional, we can surprise ourselves with what we can achieve.

The author of 10 books and publications, Donna wants your audience engaged, educated and inspired to make changes to the way they live their professional and personal lives.

She does this by delivering upbeat, entertaining sessions that share her proven and researched productivity strategies that will help you achieve more by doing less.
